Thanks, Lisa! I've been playing catch-up since being out on leave, but I wanted to get back to you about your previous email.

I agree with Dietrich. I appreciate you keeping us in the loop, but as this is outside of our normal procedures, it makes sense that EPA and Swinomish communicate directly to resolve this issue.

Thank you!

Tiffany

Hello Marty,

Thanks for sending us the revised document. We are running it by management and will be back in touch with their feedback toward the end of next week.

Lisa

Subject: What's Upstream Web Site

Dan, Angela and Lisa,

Thank you for your guidance over the past several months regarding the Swinomish Tribal Indian Community's What's Upstream public information campaign about non-point source pollution. We have reviewed your thoughtful suggested edits to our content, and have incorporated many of them in the final versions of text for the website and the letter to elected officials, which you will find attached.

The updated website will go live by the end of October, and, we believe, is stronger as a result of your team's input.

Thank you again for your assistance and support of this important ongoing project.

All the best,

Marty
